Tax exempt gifts at Christmas

Christmas is a time when friends and family come together and often swap presents between loved ones.

Many people this year are still feeling the financial repercussions of COVID-19 and are deciding to gift away cash gifts, rather than physical presents this year.

Whether you want to help by paying for a loved one's mortgage for a year, help pay utility bills or just generally give them cash to enable them to have a splurge, it is important to consider any Inheritance Tax implications on giving away sums of money.
